

VIRAL TEMPLATE: It's Not Difficult

DISCLAIMER: There is never a guarantee for virality. However, using these templates can greatly increase the chance of your short form video going viral.

Remember to post your short form video on all platforms: IG Reels, TikTok, Youtube shorts for maximum reach!

Faceless version for this template: You can simply use any clip that is relevant for your niche.

This works great even if you have a meme account, an account that predominantly sells physical products of yourself or others. People love getting tips and tricks and with this template you can create a lot of value for them.

VIRAL TEMPLATE: It's Not Difficult

This template consists of 2 parts. 1: A quick 5 second video clip. 2: A written caption in the description that gives value to your audience.

This works so well because the video itself is only 5 seconds long and will loop while your viewer is reading the caption. This will get you 2x-3x of the views "tricking" the algorithm into showing your video to more people.

- Here's your fill-in-the-blanks template - in the video:

 - *Read the caption!* 🙌

NOTES

- Make sure that the points you mention in the description are simple and easy to follow. You have limited space in the description of the video and you don't want to bore your viewer/reader.
- Aim for the video to be exactly 5 seconds long. This will maximize the "looping" effect.
- Pro tip: If you want to be extra sneaky you can use the exact same steps you're laying out in the "Viral TEMPLATE: If I Was A..."
